

Leading International PCB Equipment Supplier

Seeks

FIELD SERVICE ENGINEER

Ucamco (former Barco ETS) is a leading specialist in manufacturing CAM and Pre-CAM software photoplotters and direct imaging systems for the global Printed Circuit Board (PCB) industry.

In over 25 years' continuous experience in the development, supply and support of leading-edge front-end tooling solutions, our uncompromising pursuit of engineering excellence has always been key to our success. Our product goals are equally ambitious: through best-in-class performance, long-term reliability and continuous development, we keep our clients at the cutting edge, enabling them to increase their yields and productivity while reducing their enterprise risks and costs.

That's why major AOI, direct imaging and electrical test equipment vendors choose to OEM Ucamco software for their front-end functionality. And it's why many of the world's leading PCB manufacturers rely on Ucamco systems. And once they come to us, they tend to stay: many of our clients have been with us for upwards of 20 years. That's because we match our great technologies with unparalleled technical and customer care. With over 1000 laser photoplotters and 5000 CAM systems worldwide, we offer local support to our clients in all our major marketplaces.

At Ucamco, we highly value customer loyalty and satisfaction. After-sales follow-up and customer care is therefore something we do not take lightly. In this context we are currently looking to extend our Gent-based support team with a team-oriented and enthusiastic Field Service Engineer.

The successful candidate will:

- Install and service our plotters and direct imaging machines at customer sites Europe-wide.
- Carry out plotter maintenance in the field
- Travel frequently (several weeks/month)
- Assist product manager

We are looking for a team player who is:

- Motivated, independent and enterprising
- Technically-minded with training/background in electromechanics
- Fluent in Dutch and English (German is a plus)
- An analytical thinker
- Capable of problem solving
- Strongly customer oriented

The right candidate will be a valued member of a friendly, team-oriented, growing international company that is a leader in its field and is dedicated to excellence in all it does. Dynamic and fun, the company offers a great working atmosphere, and this new position is forward-looking and open, with plenty of opportunities for enterprising individuals, whose results could be rewarded with prospects for progression in technical development.

Sound like your sort of job? Get in touch today!

Ucamco NV, Bijenstraat 19, 9051 St.Denijs Westrem
