

PRESS RELEASE.

Ucamco appoints Denis Morin as Sales Engineer for France

To provide it's French customers with a local contact that can help them in French, Ucamco appoints Denis Morin as Sales Engineer for France, both for software and photoplotters.

Denis is an Applications Engineer in France for Ucamco since 2001, before that he was Application Engineer for Graphiccode products. Denis will now combine the sales and applications role to provide a focal point for Ucamco in France. Together with the PCB fabricators in France, and based on his profound knowledge of Ucamco's products and of the French market will allow him to develop the hardware and software solutions best suited for their front-end engineering goals.
