

PRESS RELEASE

Ucamco formalise the appointment of Index Due s.r.l as its agent in Italy

Ucamco (formerly Barco ETS) and Index Due s.r.l have signed a formal agreement confirming Index Due as Ucamco's agent handling their sales and marketing activities in Italy.

Karel Tavernier, Managing Director of Ucamco, explains: "We have been collaborating with Index Due in Italy for many years but we did not have a formal agreement until now. This new agreement marks the commitment of both companies to provide a stable long-term presence for Ucamco in the important Italian PCB marketplace."

Index will continue to handle the full range of Ucamco's products, the SilverWriter and Calibr8tor series of laser photoplotters as well as the Ucam family of front-end software, the Integr8tor PCB sales solution and the new SmartPlate software to increase plating reliability

Georges Epinette, Managing Director of Index Due adds: "We are very pleased to have signed this formal agreement. Our collaboration up until now has been very successful and Ucamco's world-beating laser photoplotter and software products are well-established in Italy. The high attendance at the last Road Show we organised demonstrated the demand for Ucamco's innovative software solutions throughout the marketplace."

The agreement covers sales and marketing. Hardware and software support will be offered directly by Ucamco's Hotline service from their headquarters in Gent, backed up by a network of field-service and application engineers.
