

## **FOR IMMEDIATE RELEASE**

### **Chinese web site for Ucamco**

*Ucamco have launched the Chinese language version of their website at [www.ucamco.com](http://www.ucamco.com).*

**Gent, Belgium – May 26, 2011 –**

Ucamco already has a strong distribution and support network in China and Taiwan. The new website is a mark of their continuing commitment to the Chinese market as it powers out of the global recession.

Rik Vandekerckhove, Sales Director of Ucamco Asia, explains: “We have been active in the Chinese market for many years and played an active role as it has grown in size and in the sophistication of the products on offer. We have had our own staff based in China for more than 10 years as well as working through our partner distributors and agents. Our flagship UCAM software has been available in Chinese for more than 5 years. Our Chinese language website is the logical extension of these activities so that the local manufacturers can have immediate access to complete information on our full range of front-end engineering software and laser photoplotters.”

### **About Ucamco ([www.ucamco.com](http://www.ucamco.com))**

Ucamco (former Barco ETS) is a market leader in PCB CAM software and laser photoplotting systems with a global network of sales and support centers. It is a sister company of Gardien, see [www.gardien.com](http://www.gardien.com). Ucamco has more than 25 years of continuous experience in developing and supporting leading-edge photoplotters and front-end tooling solutions for the global PCB industry. Key to this success has been our uncompromising pursuit of engineering excellence in all our products. More information at [www.ucamco.com](http://www.ucamco.com)
