

ELVIA PCB Group purchases Ledia Direct Imager from Ucamco

October 21st, 2014 – ELVIA, the largest French PCB Manufacturing Group, added a Ledia Direct Imager to their machine park. This new machine strengthens the groups' strategic objective to offer a unique "one stop shop" PCB solution with all technologies and services available. The Ledia Direct Imager, to be deployed for imaging of dry film and solder masks confirms ELVIA's goal to accelerate the PCB industrialization process and to improve service, quality and technology for their European customers.

More information on ELVIA PCB Group can be found on <http://www.pcb-elvia.com>

About Ucamco

Ucamco (formerly Barco ETS) is a market leader in PCB CAM software, photoplotting and direct imaging systems, with a global network of sales and support centers. Headquartered in Ghent, Belgium, Ucamco has over 25 years of ongoing experience in developing and supporting leading-edge photoplotters and front-end tooling solutions for the global PCB industry. Key to this success is the company's uncompromising pursuit of engineering excellence in all its products. Ucamco also owns the IP rights on the [Gerber File Format](#) through its acquisition of Gerber Systems Corp. (1998).
