

Neukirchner introduces Integr8tor

Gent – May 4th, 2016 –Neukirchner Druckschaltungstechnik GmbH, a medium-sized PCB manufacturer based in Mittelhessen, Germany has chosen Ucamco’s Integr8tor software to automate their customer data input and analysis.

As Mr. Schöck, CEO from HND explains: “Integr8tor raises the processing speed of the incoming customer data and enables us to generate fast and accurate DFM and cost analysis. Our customers experience a significant time reduction in Front-End-Engineering and a respectively better processing time. Integr8tor plays an important role in achieving our ambitious corporate goals.”

About Neukirchner

For over 35 years, HND has produced PCBs in Bischoffen, Mittelhessen maintaining a broad customer base from various technology sectors. On offer is a wide range of services from 24h prototypes to large volume production enhanced by application support in the development processes. HND continually adjusts to individual customer requirements particularly in a fast response marketplace. The company’s core competence lies in the production of multi-layer and double-sided circuits and, since 2009, become one of the leading providers in the field of IMS circuits. Both customers and partners benefit from the years of experience, flexibility and the advanced technologies at HND’s exclusive German manufacturing facility.
