

## Amphenol purchases a Ledia 3-wavelength Direct Imager from Ucamco

**Gent, Belgium - June 14th, 2016** – Amphenol Invotec Ltd a leading European player in the production of complex PCBs with facilities in Tamworth and Telford, UK, has purchased a Ledia 3-wavelength Direct Imager for its Tamworth plant.

Anthony Jackson, Technical Manager at Amphenol Invotec Ltd, Tamworth facility commented:

“Ucamco’s Ledia Direct Imager will enhance our ability to meet the needs of our customers in the most demanding sectors. This is a fully automated and integrated solution for our business; capability, quality and throughput demands are delivered without compromise. This addition completes the move to full digital processing for all imaging and masking operations.”

### **About Amphenol Invotec Ltd**

Operating from facilities in Tamworth and Telford, Amphenol Invotec Ltd is one of Europe’s leading manufacturers of time critical, high technology printed circuit boards.

The company manufactures a wide range of multilayer, HDI, sequential lamination, flex and flex-rigid PCBs using a variety of advanced materials, finishes and technologies to meet exacting customer specifications. Amphenol Invotec’s key markets include the aerospace, space, defence, avionics, industrial, medical, oil and gas, telecommunications infrastructure and security sectors.
