

tw-elektric purchases Ledia Direct Imager from Ucamco

Furtwangen-Rohrbach, Germany - October 14, 2014 - tw-elektric, leading PCB manufacturer in the German Black Forest area, purchases a Ledia direct imager to upgrade its high-tech HDMI production line. With nearly 100 employees and 13 Million Euro turnover TW-Elektric is a well performing, medium-sized PCB manufacturer located at Furtwangen-Rohrbach in the south-west of Germany.

The tw-elektric engineers takes pride in offering an extended service in every production phase using state-of-the-art tools and equipment, As such they were in need of a partner to deliver them a Direct Imager for the imaging of Solder masks and dry films.

CEO Andreas Müller states: "We have always been working together with trustworthy partners. We selected Ucamco because they deliver products and services matching our internal quality requirements and guidelines. The Ledia Imager fits perfectly into our manufacturing flow and will help us to do what we do best: On-time delivery of high quality printed circuit boards at a fair price."
