

**Leading International PCB Equipment Supplier Seeks
FIELD SERVICE ENGINEER
With knowledge Japanese language**

Ucamco (former Barco ETS) is a leading specialist in manufacturing CAM and Pre-CAM software, photoplotters and direct imaging systems for the global Printed Circuit Board (PCB) industry.

Over the past 25 years, our devotion to the development, supply and support of leading-edge front-end tooling solutions and our uncompromising pursuit of engineering excellence have been the key to our success. Our product goals are equally ambitious: through best-in-class performance, long-term reliability and continuous development, we keep our clients at the cutting edge, enabling them to increase their yields and productivity while reducing their enterprise risks and costs.

That is why major AOI, direct imaging and electrical test equipment vendors choose to OEM Ucamco software for their front-end functionality. And that is also why many of the world's leading PCB manufacturers rely on Ucamco systems.

At Ucamco, we highly value customer loyalty and satisfaction. After-sales follow-up and customer care is therefore something we do not take lightly. In this context we are currently looking to extend our Gent-based support team with a team-oriented and enthusiastic

**FIELD SERVICE ENGINEER
With knowledge Japanese language**

The successful candidate will:

- Install and service our plotters and direct imaging machines at customer sites Europe-wide.
- Carry out plotter maintenance in the field
- Travel frequently (several weeks/month)
- Assist product management
- Maintain technical and logistical communications with Japanese DI machine supplier

Former Barco ETS

We are looking for a team player who is:

- Motivated, independent and enterprising
- Technically-minded with training/background in electromechanics
- Fluent in Japanese and English (Dutch is a plus)
- An analytical thinker
- Capable of problem solving
- Strongly customer oriented

The right candidate will be a valued member of a friendly, team-oriented and expanding international company, that is a leader in its field and dedicated to excellence in everything it does. We offer a great working atmosphere and this challenging new position comes with plenty of opportunities and offers career prospects in a highly technical environment for those who share our commitment and dedication..

Sounds like your sort of job? Get in touch today!

Ucamco NV, Bijenstraat 19, 9051 St.Denijs Westrem
